Tracie Christie, 888-468-6499

DTSystems, Inc., Tampa, FL, has been elected to membership in the National Asphalt Pavement Association (NAPA), the national trade association for the hot-mix asphalt (HMA) industry located in Lanham, Maryland. Frank Nicotera, President, has been designated authorized representative to the Association.

With more than 1,100 members, NAPA represents the HMA producers and paving contractors in the United States, and has steadily increasing international membership ranging from Europe to Japan to Australia.

NAPA is the only association that exclusively represents the interests of the HMA producer/contractor on the national level with Congress, government agencies, and other national trade and business organizations.

NAPA supports an active research program designed to improve the quality of HMA pavements and paving techniques used in the construction of roads, streets, highways, parking lots, airports, environmental and recreational facilities.

The Association provides technical, educational, and marketing materials and information to its members; supplies product information to users and specifiers of paving materials; and conducts training courses. The Association was founded in 1955.
